

NEW!

Announcing... a New Hollow Sphere

from  **Potters Industries Inc.**
an affiliate of The PQ Corporation

SPHERICEL[®] 60P18

Potters is pleased to announce a new fused glass hollow sphere addition to the Spherichel[®] product line. This new microsphere is incredibly strong with a density of 0.6g/cc, and has the added advantage of a very small particle size... only 18 micron mean!

***Extrusion... Injection Molding...
Thermoplastics... Thermosets***
